Ministry of Higher Education  
and Science

Danish Agency for Science,  
Technology and Innovation

# InnovationDenmark database

- 24 Danish and European research and innovation programme
- 15 active programmes i 2014
- Period 1999-2014

Ministry of Higher Education  
and Science

Danish Agency for Science,  
Technology and Innovation

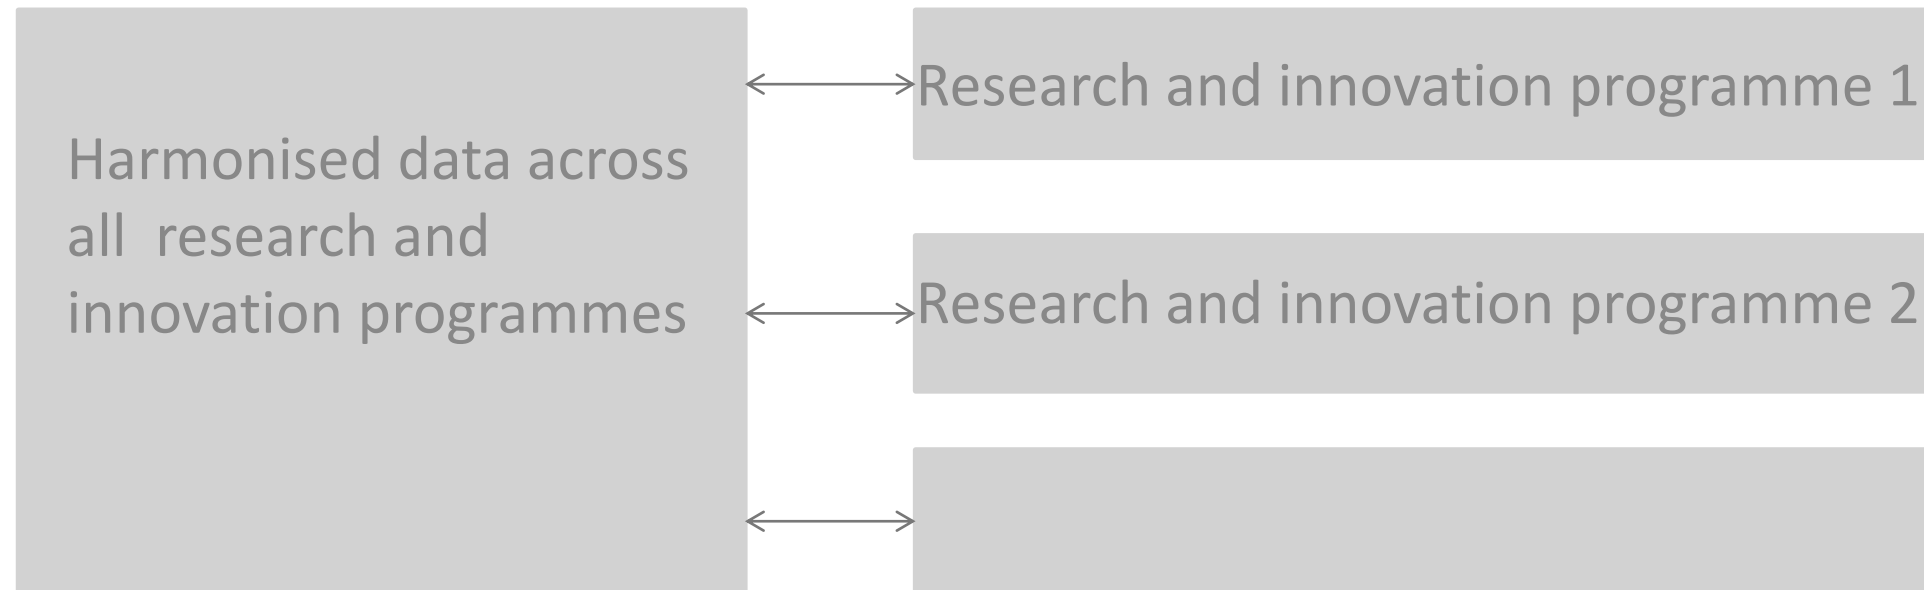

# InnovationDenmark database

- App. 12,500 unique Danish companies
- App. 22,750 participations

# Structure of data

InnovationDenmark  
database

No harmonised data for each research  
and innovation programme

# Data collection – Example of data

For each project and network

- Name of programme
- Grant status (rejection or approval)
- Project period and application year
- Budget and grant

For participating partners

- Name of all participants
- Company registration number (CVR)
- Type of participant (university, company, RTO, public institution etc.)
- Number of employees, region and business sector (NACE)

For participating individuals

- Civil registration number (CPR)
- Sex, age and education

# Impact study of the 6<sup>th</sup> and 7<sup>th</sup> framework programme

## Participants

Participating companies in  
6th and 7th framework  
programme

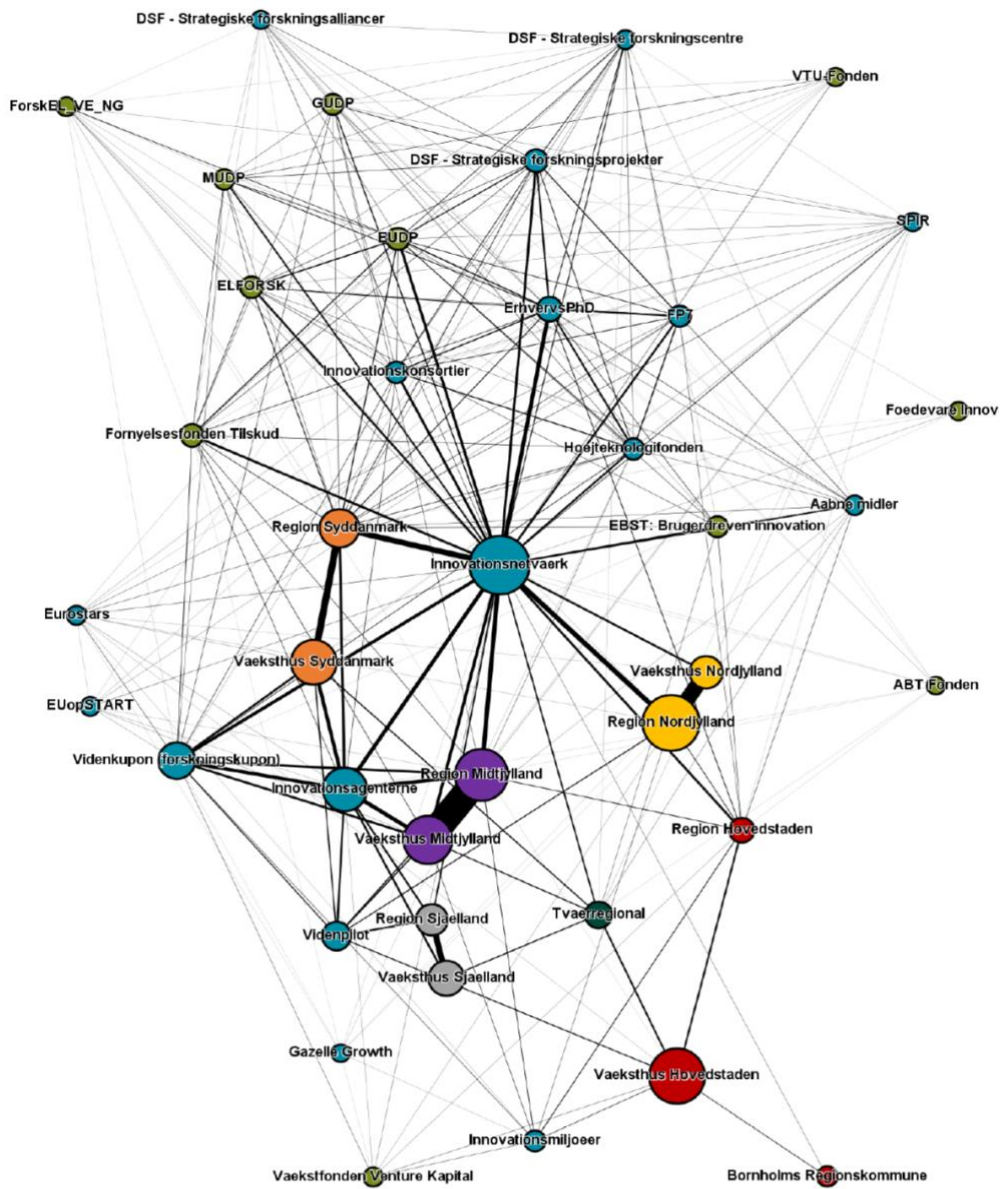

## Control group

Participating companies in  
the national R&D system

# Mapping of the companies use of the Danish and international Research and Innovation System

# What's next?

- Collection of data from all national and regional research and innovation programmes into one database hosted by Statistics Denmark
  - Statistics Denmark will validate the data and use it to validate the Danish CIS
-  This also gives researchers and ministries a unique access to data
